Lagos, Nigeria

PROFILE

Full-stack developer who handles everything from first conversation to live URL — design, code, hosting, domain, and SSL. Recent work: Dynasty League (Next.js + Supabase community platform) and Novel Breed Agric Ltd (7-page corporate site). Founder of KunleTech. Currently IT Operator at DataGuard NG.

WORK EXPERIENCE

IT Operator

March 2025 – Present

DataGuard NG · Lagos

- Monitor IT infrastructure — uptime, data integrity, network maintenance.
- Hardware/software troubleshooting and technical support for all staff.
- Implement data protection practices aligned with security policies.

Freelance Web Developer & Founder

2024 – Present

KunleTech · Lagos

- Built Dynasty League — Next.js, Supabase, PostgreSQL. Live on Vercel.
- Built Novel Breed Agric Ltd — 7-page corporate site. kunle777.github.io/novel-breed
- Full project delivery: scoping, design, development, deployment, and handover.

Web Programming Intern

Jul – Sep 2024

Light Tech Programming · Ogun State

- Frontend web projects using HTML, CSS, JavaScript under senior supervision.
- Version control (Git) and mobile-first responsive design practices.
