PROFILE

Full-stack software engineer building across backend systems, web and mobile applications, and applied AI. Comfortable owning a project end to end — from architecture and data modeling through to a live, deployed product. Backend work centers on Python (FastAPI, async SQLAlchemy, Celery/Redis) and SQL-based data design; frontend and mobile work centers on React, React Native, and TypeScript. Recent focus has extended into AI engineering — building Retrieval-Augmented Generation (RAG) pipelines and prompt engineering for features grounded in real, structured data rather than generic model output. Currently IT Operator at DataGuard NG, and founder of KunleTech, a personal software practice delivering full-lifecycle web and mobile projects.

EXPERIENCE

IT Operator — DataGuard NG *March 2026 – Present*

- Monitor IT infrastructure for uptime, data integrity, and network reliability across the organization.
- Provide hardware and software troubleshooting and technical support for all staff.
- Implement and maintain data protection practices aligned with internal security policy.

Founder & Full-Stack Developer — KunleTech *2024 – Present*

- Design, build, and ship complete web and mobile products end to end — architecture, backend, frontend, deployment, and handover.
- Built Dynasty League, a full-stack community platform (Next.js, Supabase, PostgreSQL) serving a 49-member community with live standings, an admin panel, and tournament brackets — deployed on Vercel.
- Built Novel Breed Agric Ltd, a 7-page corporate site for an animal feed manufacturer, covering product catalogue, team profiles, governance, and lead capture.
- Delivering an AI-powered productivity, savings, and coaching app as an independent build — FastAPI backend, React Native/Expo mobile app, Supabase/PostgreSQL, and a RAG-based AI layer using Google's Gemini API.

Web Programming Intern — Light Tech Programming *Jul – Sep 2024*

- Built frontend web projects with HTML, CSS, and JavaScript under senior developer supervision.
- Practiced Git-based version control and mobile-first responsive design.

KEY PROJECTS

Dynasty League · dynasty-league-h2lr.vercel.app
Full-stack platform for a 49-member online football community — live leaderboards, an admin panel, Hall of Fame, and an auto-advancing tournament bracket system.
Next.js · Supabase · PostgreSQL · Vercel

AI-Powered Productivity & Savings App · in development
Independent full-stack build combining task management, a locked savings feature, and a RAG-powered AI coaching layer personalized to each user's own data.
FastAPI · SQLAlchemy · Celery/Redis · Supabase · React Native (Expo) · TypeScript · Google Gemini API

Novel Breed Agric Ltd · kunle777.github.io/novel-breed
7-page corporate website for an animal feed manufacturing company — product catalogue, team profiles, governance section, and an enquiry form.
HTML · CSS · JavaScript · GitHub Pages

Best Market Place · kunle777.github.io/Best-market-placee
Fashion e-commerce platform with product listings, cart functionality, an admin panel, and a brand carousel.
HTML · CSS · JavaScript

Fissabillulah · crowdfunding platform

Crowdfunding platform with Paystack payment integration, dynamic donation tracking, and an admin dashboard.
HTML · CSS · JavaScript · Paystack

TECHNICAL SKILLS

Backend & Systems: Python · FastAPI · Async SQLAlchemy · Alembic · Node.js / Express · REST APIs · System Design

Frontend & Mobile: React.js · Next.js · React Native (Expo) · TypeScript · JavaScript ES6+ · HTML5 · CSS3

AI Engineering: Retrieval-Augmented Generation (RAG) · Prompt Engineering · Google Gemini API · Vector Search (pgvector)

Data & Infrastructure: SQL · PostgreSQL · Supabase · Celery / Redis · Git

Payments & Deployment: Paystack · Vercel · Netlify · GitHub Pages · EmailJS

Design Tools: Figma · Photoshop · CorelDRAW · Canva · CapCut

EDUCATION

B.Sc. Computer Science
Crescent University, Abeokuta · Graduated 2025

CERTIFICATIONS

—React.js — The Complete Guide (Udemy)
—Microsoft Office Specialist
—CPN IT Professional

LANGUAGES & STRENGTHS

Languages: English (Professional) · Yoruba (Native)

Strengths: Full project lifecycle ownership · Client communication · Problem-solving · Remote collaboration
